

Please read and follow these instructions. **Failure to do so can void the warranty, cause damage to the device, damage your vehicle or other property, and/or result in personal injury.**

This device is intended only for use in motor vehicles.

Safety and Precautions

- Disconnect your negative battery cable prior to beginning.
- Double-check all connections prior to turning on power to the unit.
- **CAUTION** - Wear safety glasses while installing the unit.
- **NOTICE** - A 2A fuse is recommended on the connection to witted 12V to prevent damage or fire in case of a short or malfunction – install close to power source.
- **WARNING**- Pay attention to driving, don't stare at the lights or use your mobile device while driving! The RPM can be logged by the app for later review while not driving.
- **WARNING** - the LED's can be VERY bright especially at night and/or without the front cover in place, which can disrupt vision or cause distraction. Set the brightness low enough to avoid this especially at night or in dark conditions.
- **WARNING** – If the unit malfunctions or causes any distraction, safely come to a stop and cover it or disconnect the power source. Remove the fuse to de-energize the power lead.

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and receiver.
- * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.

In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of manufacturer could void the user's authority to operate this equipment.

This device contains FCC ID: UYI71

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference and**
- (2) This device must accept any interference received, including interference that may cause undesired operation.**
